My Portfolio: - [www.iamshashanksingh.com](http://www.iamshashanksingh.com)

## ABOUT ME

Drawing on a year of immersive hands-on development, I blend the modern MERN stack—harnessing MongoDB Atlas, Express.js, React (with Hooks, Next.js and Redux) and Node.js (TypeScript, Tailwind CSS)—with robust Java full-stack expertise in Spring Boot, Hibernate/JPA, RESTful microservices, Spring Security and containerization (Docker/Kubernetes) to craft scalable, end-to-end web solutions. Underpinning every project is my strong command of data structures and algorithms in Java, ensuring performance and elegance in code. On the AI engineering front, I've built Python-powered chatbots and ML pipelines using TensorFlow, PyTorch, scikit-learn, spaCy and NLTK—and even experimented with the OpenAI API—to infuse intelligence into applications. This fusion of cutting-edge web technologies, full-stack principles and AI libraries empowers me to deliver responsive, efficient and future-ready software aligned with agile and SDLC best practices.

## SKILLS SUMMARY

- Python (AiML)
- JAVA(CORE) Full Stack(Certified)
- M.E.R.N Stack(Certified)
- Html5,TailwindCSS,
- Typescript, ReactJS,NextJS, Redux Toolkit, React native, React Query
- JAVASCRIPT
- Mongo db, SQL, NodeJS, ExpressJS,Spriboot
- DSA( well versed in Java)
- Git,Github,Gitlab
- OOP, TDD, CI/CD

## EXPERIENCE

PRODUCT ENGINEER, 07/2024 - Current

Magic software, Noida

- Monitored compliance with safety standards throughout the entire product lifecycle.
- Created test plans, test procedures, and developed test scripts for software products.
- Identified potential areas of risk associated with proposed product designs.
- Collaborated with cross-functional teams to ensure successful product launches.

-----  
JAVA FULL STACK DEVELOPER (INTERN), 08/2023 - 03/2024

DELTA INDIA, Pune

Writing and Testing Code: Wrote clean, functional code for both the front-end and back-end.

Develop and manage well-function

Learned and Applied New Skills :Learn new tools and technologies relevant to full stack development, such as Java, JavaScript, HTML, CSS, and various frameworks.

Apply these new skills to complete allocated web development tasks2.  
Collaborating with Cross-Functional Teams: Work closely with product managers, designers, and other developers to create cohesive and user-friendly applications.

---

SOFTWARE ENGINEERING INTERN, 05/2023 - 07/2023

ADSPRAY INTERNATIONAL, Gurgaon

- Provided technical support for customers regarding product issues and queries.
- Assisted in creating user stories, technical requirements, design documents, and project plans.
- Collaborated with other engineers in designing and developing complex software systems.
- Maintained existing software components by identifying and resolving defects.

---

## EDUCATION

Amity University, Noida, UP,

Bachelor of Technology: Computer and science First Division

- Major in: AIML
- Capstone Projects: "Sales Analytics Visualization and Future Sales Forecasting Using Machine Learning".
- Professional Development Courses: "French" as an FBL language.

---

MIC school

12th board: Science

Percentage: 89

---

Children College Icse

10th board: Computer

---

## CERTIFICATIONS

- Java Full Stack certified from Ducat Noida.
- Qa Full stack certified from Ducat Noida.
- French as an FBL
- Ui/UX certified
- M.E.R.N stack certified
- AIML in geodata

---
